## HOUSEHOLD HAZARDOUS WASTE FACILITY

1481 Pueblo Road  
Across the street from the C&D Landfill  
Open Thursdays 9 am - 3:30 pm

**Household Cleaning Products:** oven cleansers, toilet cleaners, drain cleaners, disinfectants, and ammonia based products

**Paint/ Finishing Products:** latex and oil-based paint, thinners, and turpentine, furniture strippers

**Garden/ Pest Control Products:** pesticides, household insecticides, fungicides, roach and ant killers, rat and mice poison, herbicides

**Automotive Products:** antifreeze, transmission fluid, waste oil, brake fluid, batteries. Waste oil or antifreeze mixed with any other product cannot be accepted.

### Containers of material larger than five gallons cannot be accepted

Only waste generated by a residence can be accepted at the MASWU HHW Facility. No waste from commercial, business or agricultural sources are taken. All waste must be labeled, packaged or intended for household use. Unlabeled or unknown material will not be accepted. No leaking containers can be accepted.

Household hazardous Wastes (HHW) are wastes generated in homes that are considered to be hazardous and a potential source for serious health risks.  
Call w/ questions to: 620-654-3793

## McPherson Area Solid Waste Utility

## Disposal Guide

1431 17th Avenue  
McPherson, KS 67460  
Open: Monday -Friday 8 am- 5pm  
Saturday 8am- 4pm

Phone: 620-241-6559  
Fax: 620-241-2640  
E-mail: [maswu@maswu.org](mailto:maswu@maswu.org)  
Website: [www.maswu.org](http://www.maswu.org)  
Twitter: @maswusolidwaste

Materials received at the transfer station must be separated by the waste classes listed below and disposed of at the proper area of the facility. Customers are permitted to separate mixed loads at the facility.

**Waste Classes:** household & commercial trash, household & commercial construction/demolition waste, compostable material, metal, appliances, and tires.

# TRANSFER STATION PRICING & OPERATION INFORMATION

## TRASH

Applies to commercial/contractors and all mixed loads

Minimum Fee	\$15.00
(weighs less than 485 pounds)	
Weights more than 485 lbs.	\$61.00/ton

## CONSTRUCTION/DEMOLITION WASTE

Applies to commercial/contractor waste

Minimum Fee	\$15.00
(weighs less than 1,080 pounds)	
Weights more than 1,080 lbs.	\$28.00/ton
Clean Rubble	\$9.50/ton
Clean rubble is NOT accepted at 1431 17th Avenue.	
Clean rubble is ONLY accepted at 1472 Pueblo Road.	

## COMPOSTABLE MATERIAL

Applies to contractor waste

Minimum Fee	\$2.50
(weighs less than 500 pounds)	
Weights more than 500 lbs	\$10.50/ton

## TIRES

Automobile Tires	\$ 1.60 each
Truck Tires	\$ 5.85 each
Tractor & Implement	\$22.25 each
Light Equipment	\$38.50 each
Heavy Equipment (5'+)	\$71.15 each
No charge for the first 4 car tires per load.	

Any mixed waste load will be considered trash and charged a rate of \$61 per ton payable at the gate. Minimum of \$15.00.

## Unloading of Waste

Customers will be requested to separate their load at the facility if they are hauling more than one type of item. There is staff on site to assist in the correct placement of material, but we do not provide pull-off assistance. If you are unable to unload your vehicle yourself, MASWU recommends that whoever helped you load your vehicle come with you to help you unload.

## RECYCLING OPPORTUNITIES

## RECYCLE DROP OFF AREAS

A number of recyclable materials are accepted at the transfer station. This includes such things as newspaper, cardboard, aluminum cans, some plastics, and certain types of glass. See the recycling flyer for details on what materials are accepted.

## METAL BOXES

Metal received is recycled. It is important that no trash, wood, plastic or any material other than metal be placed in the metal boxes. Non-Freon appliances are accepted in the metal boxes. **Materials not allowed in metal box: fuel containers, automotive gas tanks, burn barrel material, water softener tanks or conditioners, microwave ovens, metal doors or metal frame doors with plastic, fiberglass, or glass. No propane or Freon cylinders or bottles.**

## FREON ITEMS

There is a \$5.25 handling charge on all refrigerated goods containing Freon. This charge is assessed even if Freon has been evacuated.

## YARD WASTE AREA

A separate location is maintained at the transfer station for organic material that can be shredded and made into compost or wood chips. Composting material saves valuable landfill space and produces a product we all can use. Since all the material received is run through a shredder, we must keep anything that would damage the machine or produce unusable product out of the compost area.

Grass, leaves, limbs, lawn clippings, and tree/brush trimmings that have been removed from bags or containers may be placed in the yard waste area.

**Metal, concrete, plastic, treated or painted wood, wire, trash or foreign material can not be placed in the shred/compost area.**

## MULCH/COMPOST

Compost is available for citizens of McPherson County at \$15.00 per scoop. Pallet mulch is available at \$15.50 per scoop, and dyed mulch at \$40.00 per scoop. Chipped brush is available at \$5.00 scoop. One scoop is equal to a bucket load from our high loader (approximately 2.5 yards). Limit to one scoop per day.
